FOR IMMEDIATE RELEASE

ELECTROCUBE RECEIVES SILVER BOEING EXCELLENCE AWARD

*Southern California Design Manufacturer of Passive Electrical Components
Receives Boeing Seven-peat for Preferred Supplier*

(POMONA, CA, September 15, 2014) – **Electrocube** today announced that it has received a 2013 Boeing Performance Excellence Award. The Boeing Company issues the award annually to recognize suppliers who have achieved superior performance. Electrocube maintained a Silver composite performance rating for each month of the 12-month performance period, from October 1, 2012, to September 30, 2013. The Awards are given each spring of the following year.

This year, Boeing recognized 544 suppliers who achieved either a Gold or Silver level Boeing Performance Excellence Award. Electrocube is one of only 426 suppliers to receive the Silver level of recognition.

“At Electrocube, we’re dedicated to partnering with our clients to provide reliable products, new designs, service excellence and compressed lead times with the highest degree of precision and unwavering quality,” said Clay Parrill, president of Electrocube. “Achievements such as the Boeing Award not only validate our efforts, but underscore Electrocube’s long-standing commitment to maintain superior service and products – a key component in re-shoring American manufacturing.”

Electrocube supplies Autotransformers to Boeing for both commercial and military programs. This year’s recognition marks the seventh consecutive year Electrocube has been awarded this honor. A supplier for Boeing for 27 of its 52-year history, Electrocube has earned a well-established reputation within the aerospace industry as well as the audio, environmental, industrial, transportation, medical and military industries.

About Electrocube, Inc.

Founded in 1961, Pomona, CA-headquartered Electrocube, Inc. is an award-winning engineering design, manufacturing and sources servicing company of passive electrical components including film capacitors, RC Networks, foil transformers and custom EMI Filters for a wide range of standard and custom applications. The company is second-generation, family-owned and retains all operations – from manufacturing and design to delivery – within the United States.

Electrocube is known for its signature, custom precision and superior quality control/testing in a number of client industries including: aerospace, appliances, audio, commercial, equipment controls, environmental controls, industrial, medical, military, renewable energy, test equipment and transportation.
