## FOR IMMEDIATE RELEASE

### **ELECTROCUBE RECEIVES SILVER BOEING EXCELLENCE AWARD**

*Southern California Design Manufacturer of Passive Electrical Components  
Receives Boeing Six-peat for Preferred Supplier*

**(POMONA, CA, April 2013) Electrocube** today announced that it has received a 2012 Boeing Performance Excellence Award. The Boeing Company issues the award annually to recognize suppliers who have achieved superior performance. Electrocube maintained a Silver composite performance rating for each month of the 12-month performance period, from Oct. 1, 2011, to Sept. 30, 2012.

This year, Boeing recognized 594 suppliers who achieved either a Gold or Silver level Boeing Performance Excellence Award. Electrocube is one of only 441 suppliers to receive the Silver level of recognition.

"At Electrocube, we're dedicated to providing reliable products, new designs, service excellence and compressed lead times with the highest degree of precision and unwavering quality to our customers," according to Clay Parrill, Electrocube president. "This distinction of 'preferred supplier' not only validates that philosophy, but underscores our continued commitment to maintain superior service and products in today's dynamic market."

Electrocube supplies Autotransformers and EMI Filters to Boeing for both commercial and military programs. This year's recognition marks the sixth consecutive year Electrocube has been awarded this honor. A supplier for Boeing for 26 of its 51-year history, Electrocube has earned a well-established reputation within the aerospace industry as well as the audio, environmental, industrial, transportation, medical and military industries.

#### **About Electrocube, Inc.**

Founded in 1961, Pomona, CA-headquartered Electrocube, Inc. is an award-winning engineering design, manufacturing and sources servicing company of passive electrical components including film capacitors, RC Networks, transformers and custom EMI Filters for a wide range of standard and custom applications. The company is second-generation, family-owned and retains all operations – from manufacturing and design to delivery – within the United States.

Electrocube is known for its signature, custom precision and superior quality control/testing in a number of client industries including: aerospace, appliances, audio, commercial, equipment controls, environmental controls, industrial, medical, military, renewable energy, test equipment and transportation.
